

ARTIFICIAL TURF

MAINTENANCE FREE LIVING

THE PERFECT SOLUTION TO WATER RESTRICTIONS

Thanks to new technology, manufacturers have finally been able to reproduce what LANDSCAPE INSPIRATIONS considers the perfect artificial lawn. While there are some cheaper artificial lawns available, LANDSCAPE INSPIRATIONS has chosen to use one brand made with the highest quality materials, supported by a ten year warranty.

With climate change accompanied by water restrictions, artificial turf is not the only solution, but an ideal one given it requires absolutely no watering or maintenance.

With artificial turf & carefully selected plants & drip irrigation system, your garden can retain that lush green look we all enjoy. The ideal solution to water restrictions.
